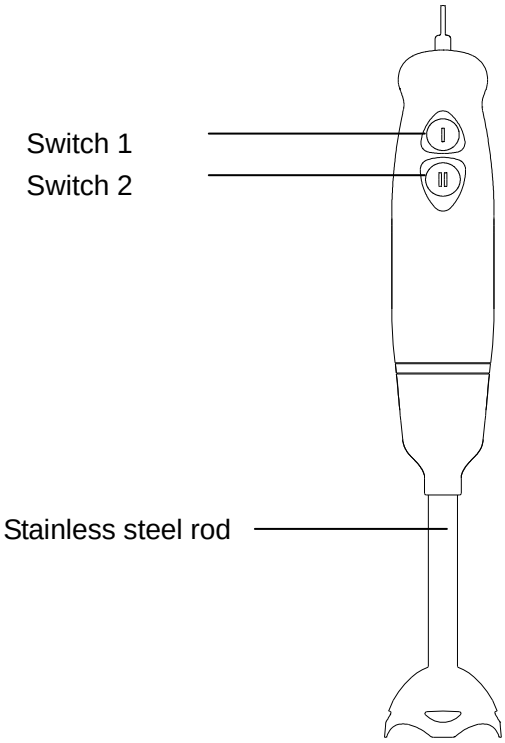
HAND BLENDER

SY·BM26

Welcome

Thank you for purchasing the new hand blender SY-BM26. Please read these Operating Instructions through carefully before connecting your device to the mains, in order to avoid damage due to incorrect use. Please pay particular attention to the safety information. If you pass the device on to a third party, these Operating Instructions must also be handed over.

Description



Important safeguards

Before using your new stick blender, read the instructions in this booklet. Store in a safe place for future reference. Make sure that the operating voltage indicated on the appliance is the same as supply voltage in your home.

When using electrical appliances, basic safety precautions should be followed, including:

- To protect against the risk of electric shock, do not immerse any part of this appliance into water or any other liquid.
- Take special care when preparing food for babies, elderly and infirm people. Always ensure that the hand blender shaft is thoroughly sterilized. Use a sterilizing solution in accordance with the sterilizing solution manufacturer’s instructions.
- Never touch the blades while the machine is plugged in.
- Keep fingers, hair, clothing and utensils away from moving parts.
- Never blend hot oil or fat
- Short time operating. Use the appliance for no longer than 1 minute. Do not mix hard products for over 10 seconds.
- Never leave the appliance unattended when in use. This appliance is not intended for use by children or disabled person without supervision.

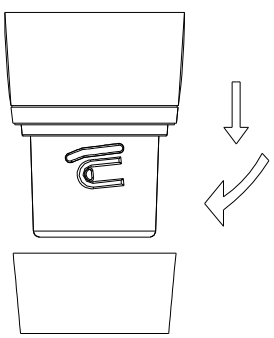
- Unplug from outlet while not in use, before putting on or taking off parts and before cleaning.
- Do not let the cord hang over the edge of a table or counter. Do not let it be in contact with hot surfaces, including the stove.
- Do not wet the motor unit or the plug at any time
- Do not use this appliance outdoors or for commercial purposes. This unit is intended for household use only.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or it is dropped or damaged in any manner. Contact Sytech Service Centre for any service or reparations.
- The use of attachments or accessories not recommended or sold by the manufacturer may cause fire, electric shock or injury.
- If the blades get stuck, unplug the appliance before you remove the ingredients that block the blades.
- Do not attempt to repair or disassemble the appliance. There are no user serviceable parts.
- This appliance is not intended for use by persons (including children) with reduced physical sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified person in order to avoid a hazard.
- Care shall be taken when handling the sharp cutting blades, emptying the container and during cleaning. Do not try to use the cutting blade or accessory other than the correct purpose to prevent dangers. Misuse or wrong assembly of the cutting blades or accessories will cause dangers.

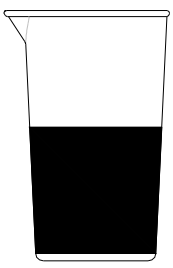
Before first use

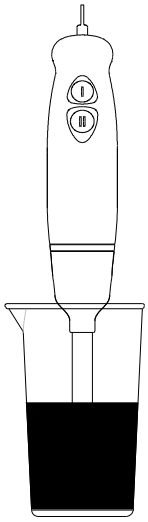
- Always make sure that the operating voltage indicated on the appliance is the same as supply voltage in your home before using any appliance for the first time.
- Carefully unpack the hand mixer and remove all packaging material.
- Clean the various accessories of your appliance in warm soapy water. Rinse and dry thoroughly before use.

Instruction for use

- Insert the shaft with the blade into the motor part, turn until it locks. Make sure it is attached firmly.
- The stick blender blends and mixes fast and easily. Use it to make sauces, soups, mayonnaise, purees, dietary and baby food, mixed drinks cocktails; you can operate the SY-BM26 in any bowl, pan or other container. If you want to blend directly in the saucepan while cooking, take the pan away from the stove first and then proceed with the blending process. This is to protect the unit from over heating.
- To avoid splashing, insert the blender into the container first, and then press the switch. Keep the switch pressed for operation, to stop your stick blender, simply release the switch.







Caution

- Do not continuously operate the blender for a long time. The motor may overheat. Do not allow the blender to operate more than 1 minute at one time.
- Never wash the motor housing in water.
- Be sure the cord is removed from the electrical outlet before detaching the rod from the motor part.

Cleaning and Maintenance

- Before cleaning, always switch off and unplug the cord from the electrical outlet.
- Wash the detachable blending rod with blades in hot soapy water. Rinse well and dry thoroughly.
- Wipe blender body with a damp cloth.
- Some food may not be easily rinsed off the blade or whisk. In this case place a drop of dish washing detergent in the mixing container with water. Now insert the blender and use for about 1 minute and stop.
- Some foods e.g. carrot may discolor the plastic, Brushing with a cloth dipped in vegetable oil helps remove discoloring.

Technical data

Hand Blender
Power: 400W DC motor
2 speed controls – High /Low – 14.000 rpm
